- Extensiones

The screenshot displays the VS Code Extensions sidebar with a dark theme. A vertical scrollbar is visible on the left. The extensions are organized into two columns. The left column lists extensions including 'Debugger for Java' by Microsoft, 'Extension Pack for Java' by Microsoft (marked with a '6' badge), 'GitLens — Git sup...' by GitKraken, 'IntelliCode' by Microsoft, 'IntelliCode API Usage Exa...' by Microsoft, 'Language Support for Jav...' by Red Hat, 'Markdown All in ...' by Yu Zhang, 'Markdown PDF' by yzane, and 'Markdown Previe...' by Matt Bierner. The right column, under the 'INSTALLED' header (with a '21' badge), lists 'Markdown All in ...' by Yu Zhang, 'Markdown PDF' by yzane, 'Markdown Previe...' by Matt Bierner, 'markdownlint' by David Anson, 'Maven for Java' by Microsoft, 'Project Manager for Java' by Microsoft, 'Test Runner for Java' by Microsoft, 'vscode-pdf' by tomoki1207, and 'WSL' by Microsoft. Each extension entry includes an icon, the extension name, a brief description, the publisher's name, and a settings gear icon. Some entries also show a download or update time.
